

Xcel Energy Center honored

Submitted by Vineeta Sawkar on Thursday, April 29th, 9:21 am

✓ The Xcel Energy Center is honored with the Sustainable St. Paul award. St. Paul Mayor Chris Coleman and City Council members presented the award on Wednesday. Mayor Coleman created the award to recognize St. Paul businesses, organizations and people who are helping the environment in the city.

Mayor Coleman says officials at the "X" have done a great job of waste prevention and reduction and recycling. RiverCentre, the Xcel Energy Center and the Roy Wilkins Auditorium combined to divert 855,000 pounds of trash. More than 280 recycling bins are located all over the three facilities and have created a one to one ratio with the amount of trash cans available.
