

2018-2019 ANNUAL SUSTAINABILITY SUMMARY

XCEL ENERGY CENTER | SAINT PAUL RIVERCENTRE

October 2019 marks the tenth anniversary since the inception of the formal sustainability programs at the Saint Paul RiverCentre / Xcel Energy Center campus. Over the past ten years, we have focused on seven areas of sustainability: Waste, Energy, Water, Air Quality, Purchasing, Transportation and Community.

When we began our journey, we did so with a goal of being a leader in sustainability. To get there, we knew we would need to be willing to try new things, learn from our mistakes, adjust processes, be patient and continually educate.

Ten years later, we celebrate being LEED Platinum Certified, making Xcel Energy Center the first NHL venue in the nation with this certification and Saint Paul RiverCentre one of the first convention centers in the nation with this certification.

10 YEARS OF SUSTAINABILITY

4,050 Tons Recycled

2,665 Tons Composted

312 Tons Food Donated

9,500 Lights
Upgraded to More
Efficient Technology

8 Electric Car Charging
Stations Installed

\$575,000
Energy Efficiency Rebates
Received from Xcel Energy
